OBJECTIVE

Aspiring Software Developer who believes **technology is only worthwhile when it solves a genuine problem** for real people. I work across the full stack — from backend APIs in Python, PHP, Django and FastAPI to responsive frontends in Next.js, React.js — and also build ML-driven tools using Scikit-learn and TensorFlow. Looking for a role where I can bring that mindset to a team and contribute meaningfully through the software I help build.

TECHNICAL SKILLS

Languages: Python, Java, PHP, C, C++

Web & APIs: Django, PHP (OOP), REST APIs, HTML5, CSS3, JavaScript, Bootstrap, Next.js, React.js

Data & ML: NumPy, Pandas, Scikit-learn, TensorFlow/Keras, Matplotlib

Databases & Tools: MySQL, MongoDB, Oracle SQL, Git/GitHub, Linux

ACADEMIC PROJECTS

MittiSafar — Rural Tourism & Employment Platform *April 2025*

PHP · MySQL · JavaScript · Bootstrap · Email OTP · Razorpay | *github.com/amitghoyal/mittisafar-platform*

- Built for travellers who want to live a place rather than just visit it — authentic homestays, chulha-cooked meals, and village life — while turning that curiosity into direct income for rural households.
- Designed the two-sided marketplace so a host can list an experience and a traveller can discover, book, and pay for it end-to-end, with email OTP for forget password, role-based host/traveller dashboards, and Razorpay checkout on a MySQL backend.

SwasthyaBuddy — AI-Powered Health Companion *In Progress*

Python · FastAPI · Scikit-learn · MySQL · Google Maps API | *github.com/amitghoyal/swasthya-buddy*

- Started from a real gap: PCOS/PCOD affects a huge share of Indian women and stays undiagnosed for years simply because early screening isn't accessible — this app lets a woman check her risk level from home, before a clinic visit.
- A Scikit-learn model scores symptom and lifestyle inputs behind a FastAPI, then returns a personalized diet/lifestyle plan plus nearby specialists via Google Maps API, with MySQL storing user history.

Aakar Creatives — Personalized Gifting Platform Built for a Small Business *2023 – Present*

PHP · MySQL · JavaScript · Bootstrap · WhatsApp Integration | Live Site : https://aakar-creatives.infinityfree.me

- Built and maintain a live e-commerce platform for a small business — personalized hampers, magazines, and photo frames designed to give my mother's handmade work an actual online presence and customer reach beyond word-of-mouth.
- Replaced manual order-taking with a click-to-WhatsApp ordering flow: selecting a product auto-generates an inquiry message with item, quantity, and price, backed by a PHP/MySQL admin panel for catalog and inventory.

EDUCATION

QUALIFICATION	INSTITUTION	YEARS	CGPA
Master of Computer Applications (MCA)	GLS University, Ahmedabad	2025 – Present	9.18 / 10
Bachelor of Computer Applications (BCA)	Veer Narmad South Gujarat University, Surat	2022 – 2025	8.12 / 10

CERTIFICATIONS

- AWS AI Practitioner Challenge — Udacity, in collaboration with Accenture *June - 2026*
- Claude 101 — Anthropic Academy / Anthropic Education *July- 2026*

ACHIEVEMENTS & LEADERSHIP

- Best Leader Award, Trendsetters Marketing Club (2024–25) — leadership, strategy planning and event management.
- Academic Excellence Award, two consecutive years (2023–24, 2024–25) — top academic ranks.
- 1st Prize, Blogger's Paradise inter-college competition (2024) — content writing and website making.
- 1st Runner-Up, Advertisement Making Competition (2024) — creative campaign strategy and video editing.
- One of the Event Coordinators for Antarang 2024 (college annual cultural fest) and Sankalan 2025 (college technical fest).
